

Climate Variability Influencers Workshop 2

10am-12noon Tuesday 29th June 2010

Birregurra Community Centre
Strachan Street, Birregurra

- Looking at Climate Variability and Influencers in more detail than the first workshop held on 29th May, which are: El Nino, La Nina, the Indian Ocean Dipole (Temperature differences in the Indian Ocean), the Sub Tropical Ridge (Sub Tropical High Pressure system), and The Southern Annular Mode (Antarctic systems which influence winter cold fronts).
Also we will consider current climatic trends in SW Vic and how the influencers are impacting on these trends.
- DPI research into farmer perceptions of, and adaptations to, climatic variability and change in SW Vic.
- Tools for tracking influencers and predicting potential rainfall and temperature in coming seasons.
- Effective ways of communicating what influences climate in SW Vic.

Guest presenter Graeme Anderson, Senior Subject Specialist, DPI
